Subject: IAQG OASIS Modification to Show Certification Exclusions

The following change is being implemented December 3, 2009 in IAQG OASIS (http://www.iaqg.org/oasis).

The ability to include and show certification exclusions:

1. When entering certification data, an additional entry box is created that asks if excluded clauses are identified

   Are Exclusion Clauses identified?

2. After you have selected ‘Yes’, a list will appear where the applicable excluded clauses shall be ticked, e.g., 7.3 if Design and development is excluded. This will be mandatory starting January 1st, 2010.

   Exclusion Clauses tick boxes (only visible if Excluded Clause(s) Identified is ‘Yes’)

The Exclusion Clause(s) become(s) visible in the public part of OASIS on the Supplier Details screen under Selected Certificate Details.

In case of questions, please contact the IAQG support function at: IAQGsupport@sae.org or your sector representative:

Americas – Becky DeGutis - bdegutis@sae.org
Asia/Pacific – Yoshitsugu Kanno - kanno@sjac.or.jp
Europe – Ian Folland - icfolland@btinternet.com.

Sincerely,
The IAQG Database Team
